ABOUT THIS BROCHURE

This brochure introduces the Cyber Essentials and Cyber Essentials Plus certification services from Your IT Department. It explains who the services are for, what each level of support includes, and how to request a tailored quotation for your organisation.

Cyber security certification, made achievable

Cyber Essentials is the UK government backed standard that shows your organisation takes cyber security seriously. Cyber Essentials Plus goes further, adding an independent technical assessment for the highest level of assurance. We make both achievable.

Win more business

Certification is increasingly required to bid for contracts and satisfy supply chain requirements.

Reassure insurers

Demonstrate the fundamental controls that cyber insurers and customers now expect to see.

Certify in time

We prepare you to achieve Cyber Essentials Plus within the limited window after passing Cyber Essentials.

Qualified assessors

As accredited assessors we interpret the scheme so it is achievable for an organisation of your size.

WHY YOUR IT DEPARTMENT

Qualified assessor expertise, independent assurance at every stage, and a clear path from Cyber Essentials through to Cyber Essentials Plus. You keep control of remediation while we remove the uncertainty.

Who these services are for

Our Cyber Essentials services suit organisations that need recognised certification and value expert guidance, whether or not they have an internal IT team.

Ideal client	What they need
Contract driven	Organisations that need certification to win work or satisfy supply chain and insurer requirements.
In house capability	Businesses with internal IT that want expert interpretation and assurance rather than full delivery.
Targeting CE Plus	Larger or multi site organisations that need to achieve Cyber Essentials Plus within the required window.
Compliance led	Buyers seeking the highest level of assurance for the board, customers and regulators.
Multi site operations	Businesses with several locations that need a consistent standard of security across every site.

TYPICAL BUYER

Managing Directors, Finance Directors, IT Managers and Network Managers responsible for winning contracts, satisfying insurers and protecting the organisation.

The outcomes we deliver

Certification is more than a badge. Our service is designed to deliver tangible business outcomes at every stage of the journey.

Outcome	What this means for you
Recognised certification	Achieve Cyber Essentials or Cyber Essentials Plus to meet contractual, insurance and regulatory needs.
Reduced risk of failure	Expert evidence review reduces the risk of a failed assessment and wasted certification fees.
Certified in time	Structured preparation ensures you certify within the window after passing Cyber Essentials.
Best use of your team	You keep control of remediation while we provide the assessor expertise and interpretation.
Independent assurance	An accredited assessor validates your readiness and gives confidence to your stakeholders.

THE TAKEAWAY

Passing Cyber Essentials is straightforward. Achieving Cyber Essentials Plus within the required window is where organisations need support, and where our assessors make the difference.

Choosing the right level of support

Three levels of support, defined by how much of the process you would like us to take on. Every level is delivered by the same qualified assessor team.

Certification Only

From £250. A straightforward certification route for capable in house teams who complete the assessment and remediation themselves.

Assisted

From £995. Guided support completing the assessment accurately, while you keep technical remediation in house.

CE and CE Plus Assisted

From £2,995. The complete journey to independently assessed Cyber Essentials Plus, with assessor coordination throughout.

Tailored to you

Multi site, operational technology and larger environments are quoted to reflect scope and complexity.

IDEAL CLIENT NOTE

If Cyber Essentials Plus is your goal, we recommend the combined programme. Passing Cyber Essentials is straightforward, but achieving Cyber Essentials Plus within the required window is where organisations need support.

DELIVERABLES

What each service includes

"Clear scope, expert guidance, certification achieved."

Certification Only

- ✓ Access to the certification platform and route
- ✓ Written kick off instructions and scope guidance
- ✓ Overview of the five control areas
- ✓ Administrative support and outcome confirmation
- ✓ Cyber Essentials certificate on a pass

Assisted

- ✓ Kick off session on certification requirements
- ✓ Targeted evidence and information requests
- ✓ Drafting and validating your responses
- ✓ Gap review and written remediation guidance
- ✓ Final review and submission support

CE and CE Plus Assisted

- ✓ Discovery workshop and readiness report
- ✓ Prioritised gap analysis and action plan
- ✓ Remediation guidance and evidence review
- ✓ Device sampling review and readiness sign off
- ✓ Assessor coordination through to CE Plus

Included on every level

- ✓ The same qualified assessor team
- ✓ Interpretation of the scheme for your size
- ✓ Independent assurance and confidence
- ✓ Clear, jargon free guidance
- ✓ Certification management support

WHERE THIS SERVICE DRAWS THE LINE

These services provide advisory, assurance and certification support. You remain responsible for implementing technical remediation and for the accuracy of the information provided. Certification depends on your environment meeting the scheme requirements at the point of assessment.

Your investment

Fixed pricing, scaled by the size of your organisation. Certification and assessor fees are charged at cost as a pass through.

Organisation size	Certification Only	Assisted	CE & CE Plus Assisted
Up to 100 employees	£250	£995	£2,995
101 to 250 employees	£250	£1,295	£3,995
251 to 750 employees	£350	£1,795	£5,995
751 to 2,000 employees	£395	£2,495	£7,995
2,000+ employees	Bespoke	Bespoke	Bespoke

Prices shown are standard published starting rates, exclusive of VAT. The Cyber Essentials certification fee is a pass through on all levels; the Cyber Essentials Plus assessor fee is a pass through on the CE and CE Plus Assisted level. Multi site, operational technology and multiple tenant environments may be quoted separately. Your account contact can prepare a tailored quotation for your business.

Where these services draw the line

To keep scope clear and protect service quality, the following are available separately or require additional scoping.

Available separately

- ✓ Technical remediation and implementation
- ✓ Infrastructure upgrades and firewall replacement
- ✓ Hardware and software procurement
- ✓ Microsoft 365 reconfiguration
- ✓ Major security or migration projects

Scoped on request

- ✗ Penetration testing beyond CE Plus requirements
- ✗ Ongoing vulnerability management
- ✗ Continuous managed security services
- ✗ Multi site and operational technology uplift
- ✗ Additional company or tenant environments

DELIVERED BY QUALIFIED ASSESSORS

Every level is delivered by the same accredited Cyber Essentials assessor team, so you get consistent expertise and independent assurance whichever service you choose.

Ready to get certified?

Book a short scoping call and we will recommend the right level of support for your business, then prepare a tailored quotation.

- ✓ A qualified assessor reviews your position
- ✓ A clear recommendation on the right service level
- ✓ A fixed price quotation for your organisation
- ✓ A structured path to certification
